Please send applications, with the fee, to
 Dorianne Forsdick, 22 Ocean View, Carlyon Bay,
 St Austell, Tel 01726 879205.

Handicaps – Results of competitive singles matches, for both codes, must be maintained on the cards provided, so that handicaps vary automatically, but may also be changed, if deemed to be incorrect, by club handicappers,. Automatic changes should be reported to a handicapper, who will up-date your card. Cards must be available for inspection when playing league or tournament matches.

Note – For Short-Croquet rules, on Wednesdays, a different AC handicap applies, and must be recorded on a different card from the normal Association card. All GC Thursday-morning competition results should be entered on a separate handicap card, whether played on full or half lawns, and count 10 index points.

GC match results must be recorded on the new cards, using the trigger points below. Each handicap game counts plus or minus 10 index points.

Note – The trigger point between two handicap levels is NOT the same going up and going down

E.g' – Golf Handicap 11 changes to 10 at Index 1200

Handicap 10 changes to 11 at Index 1150

Association handicaps are altered in a similar way.

The following is a precis of the CA ruling on automatic handicap changes becoming effective.

'Whenever a player's index is on or passed a trigger point for a handicap change [see Tables] his handicap changes accordingly at the end of that day; except that all games within an event should be played off the same handicap; unless the event runs over more than four days, when it will be treated as separate events, and handicap changes between those events will take effect.'

For instance, achieve a trigger point:-

(A) During 1st day of a 2-day tournament: the handicap changes at the end of the 2nd Day.

(B) During any match of a season-long event, (eg Golf KO, Dowding Cup etc.) or

(C) A President's Cup Preliminary Match, the handicap changes at the end of that day.
